Mr. Grinstead Tells in Court of Assault, and Again Identifies Assailant.

TWO NEW ENTERPRISES

Charters Recorded in Clerk's Office Yesterday—One Firm Will Deal in Timberlands.

(Special to The Times-Dispatch.)
PETERSBURG, Va., July 18.—In the Mayor's Court this morning a white man who was arrested here yesterday on suspicion of being the stranger who assaulted and robbed J. E. Grinstead, a clerk in Miller & Company's store, near Sycamore and Bollingbrook streets, on the afternoon of June 13th, was brought before the court. Charles B. Buckley, of Washington, D. C., denied the charge, and told the court that he could prove his innocence. The prisoner said that his home was in Washington, he was a printer by trade, and claimed that he could prove by several witnesses that he was not the man who worked, and whose names he gave, and also by the police that until July 8th last he had not been out of Washington since May 30, 1906. After the arrest yesterday afternoon near Old Market Square, the detective David P. Eanes, the officer took the man before Mr. Grinstead, who identified the prisoner as his assailant. Mr. Grinstead told the story of the assault in court this morning, and again identified Buckley. The Mayor continued the case for a week, and meanwhile information about the prisoner will be secured from Washington.

JAMESTOWN EXPOSITION GROUND, July 18.—Members of the Association of State and National Food and Dairy Departments, in eleventh annual convention at the exposition, who yesterday were at sharp issue among themselves over the question of whether the State or Federal governments should administer the food laws, the State officers standing up for States' right and the Federal for national control, were not so far apart today.

All members of the association want uniform laws as far as local conditions will permit, with the Federalists still thinking that the laws should be administered by the national government and the States' rights party still unwilling to surrender State control.

DR. E. W. MAGRUDER, Virginia Chemical Analyst, who was chosen third vice-president of the State and National Food Association.

The States want something a little more strict than the food laws, as they are now being enforced by the Federal government, but they will not likely fall out with the Federal government if they can get uniformity. The association will likely ask that the Federal officers be required to conform with the Standardizing Committee of the association in administering the food laws.

Uniformity Keynote.

The association will make a recommendation as to the administering of the food laws before adjourning tomorrow. Uniformity will be the keynote of the recommendation, whether the laws be State or national. It was also pointed out in today's meeting of the association that the Federal pure-food laws have never been construed by the courts. It is regarded as probable that the courts would put a stricter and more satisfactory construction on them than do those who are now charged with enforcing them.

Officers of the association were elected today as follows: President, E. F. Ladd, of Fargo, N. D.; president of the North Dakota Food Commission; First Vice-President, E. W. Burks, of Evansville, Wyo.; Second Vice-President, H. E. Shuknecht, of Chicago, Assistant Food Commissioner of Illinois; Third Vice-President, E. W. Magruder, of Richmond, State Analyst of Virginia; Secretary, R. M. Allen, of Lexington, Ky.; Treasurer, T. K. Bruner, secretary of the North Carolina Board of Agriculture. Papers read before the convention today were on controlling the use of adulterants, labeling and guarantee clauses, adulteration, diseases and contamination.

It was a noticeable fact that the convention was more largely attended today than on any other day since it met. Seven more States are represented at the convention than were ever before represented, and those here vouch for the statement that never before in the history of the association has there been so much interest in the proceedings. All members of the association present—and they are from all parts of the country—state that

WHITE MAN KILLED OTHER MAY DIE

Negro Does Deadly Work in Box Car Near Lynchburg. All Stealing Ride.

(Special to The Times-Dispatch.)
LYNCHBURG, Va., July 18.—Robert Cooper, of Madison, was instantly killed and William Lawhorn, of this city, was seriously wounded today by an unknown negro, who shot the two men in a quarrel on a westbound freight of the Norfolk and Western a few miles from this city. The two white men had spent the morning in the country and had jumped the freight to ride back to the city, when the negro assailant and a companion clambered into the empty coal car in which they were sitting. An altercation arose, and both Lawhorn and Cooper attempted to jump out of the car, when the negro pulled his pistol. Cooper was shot in the lung, while Lawhorn received one wound in the jaw. The negroes escaped before Lawhorn could call for assistance.

Twenty Thousand in Parade.

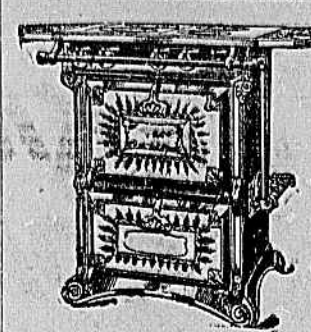

Every attention was given to the spectators to see that they were protected, but it required four hours for the parade to get under way, and the eager people stood in the hot sun for two hours or more before the parade started. The total number in the line of march is conservatively estimated at 20,000 men, with about 125 floats.

About one hundred lodges from cities and towns from the Atlantic to the Pacific participated in the parade. There were ten divisions, under command of Chief Marshal John P. Sullivan, of New Orleans, Grand Esquire of the Elks, The Philadelphia Lodge the host of the occasion, had the right of line with 1,800 men.

The Grand Lodge installed its newly elected officers to-night, at which time it was announced that at a previous session the State association of Elks had been given official recognition. This decision on the part of the Grand Lodge settles a fight that has been waged for two years. The State association is restricted in its work, and may not take up legislative matters, or interfere with executive affairs in the subordinate lodges. Its principal work will be along charitable and fraternal lines.

ARMY-NAVY UNION FAVORS CANTEN

Convention Adopts Strong Resolutions Urging That It Be Restored.

AN AID TO TEMPERANCE

Appeal to Congress to Show the Courage to Meet Situation—For Increase in Pay.

WASHINGTON, D. C., July 18.—

The convention of the Army and Navy Union today voted in favor of the restoration of the army canteen, and for an increase of ten per cent. in the pay of petty officers and enlisted men of the navy on every four years' service. Resolutions of condolence were adopted to the relatives and friends of late comrades of the battleship Georgia, who lost their lives as the result of the recent explosion on that vessel.

The national commander, by unanimous vote, was authorized to establish a garrison of the Union on battleships and other vessels. The resolutions adopted in favor of the restoration of the army canteen follow:

"Resolved, by the Army and Navy Union, in convention assembled, That we desire to go on record with the officers and men of the army, with President Roosevelt and Secretary Taft, with the Spanish War veterans, and the relatives and friends of late comrades of the battleship Georgia, who lost their lives as the result of the recent explosion on that vessel, that we are adopting the following resolutions:

"Resolved, That our own experience has shown beyond question that the sale of beer and high drinks in the army canteen was a veritable temperance measure; that it aided in promoting the moral welfare and comfort of the men in the posts and camps, and that no greater blow to genuine temperance was ever struck than when the law was repealed.

"Resolved, That we believe that Congress should have the courage to meet this question squarely and fairly, and not be influenced, as in the past, by the theories of prohibitionists, who have no actual experience with army and navy life. We therefore direct the officers of the organization to use whatever steps may be necessary to urge Congress to restore the former law as to the canteen, believing that we are acting not only for the good of our soldiers, but likewise in the interest of temperance and moderation.

The third automobile, which came flying along the avenue immediately after the accident, barely escaped colliding with the wreckage.
